

Making the Bulletin in Word

A replacement for Microsoft Publisher: what it does and how to use it

Microsoft is retiring Publisher, so we are moving the weekly bulletin to Microsoft Word. A small add-in puts a new **Bulletin** tab at the top of Word with buttons for everything in our bulletin. You work on the pages in reading order, and Word arranges them for folding and stapling when it prints, the same way Publisher did.

What it does

New Bulletin	Starts a complete bulletin in one click: a cover with a spot for a picture, <i>A Reflection Before the Service</i> , the order of worship and the announcement pages. Replace the [bracketed] text with this week's details.
Start Next Week	Copies last week's bulletin to a new file for next Sunday and updates the date everywhere. Last week's file is left unchanged.
Order of worship	Buttons add a Worship Item , Hymn (title, verses, hymnal number and room for the words), Scripture (with <i>Reader / People</i> response), Responsive Reading , Sermon and a black Heading Bar , all already formatted.
Announcements	Announcement (Event Date Time Place, then details), a Weekly Schedule table, and New Page .
Bulletin Styles	Select pasted text and choose a style (Lyrics, Chorus, People Line, Small Print...) so it matches the rest of the bulletin.
Booklet View	Shows two pages side by side, like the opened booklet.
Check Pages	A folded booklet needs a multiple of 4 pages. Check Pages shows the page and sheet count and can add blank pages <i>before</i> the back cover.
Printing	Print Booklet prints double-sided in folding order. PDF for Printing is for a copier or print shop, and PDF for Website gives one page per PDF page for the website and email.
Publisher tab	For flyers, posters and cards: text boxes and pictures that stay where you put them, linked text boxes, layout guides that don't print, align and arrange tools.

Installing (about one minute)

- 1 Save the three files you were sent (**WordPublisherKit.dotm**, **Install.cmd**, **Uninstall.cmd**) into one folder. If they came in a .zip, right-click it and choose *Extract All*.
- 2 **Close Word**. Then double-click **Install.cmd** and press any key when it says *Installed*.
- 3 Open Word. A **Bulletin** tab now appears next to **Home**.

Needs Windows with Word 2013 or newer (Microsoft 365 is fine). To remove it, close Word and double-click **Uninstall.cmd**.

1 · The Bulletin tab

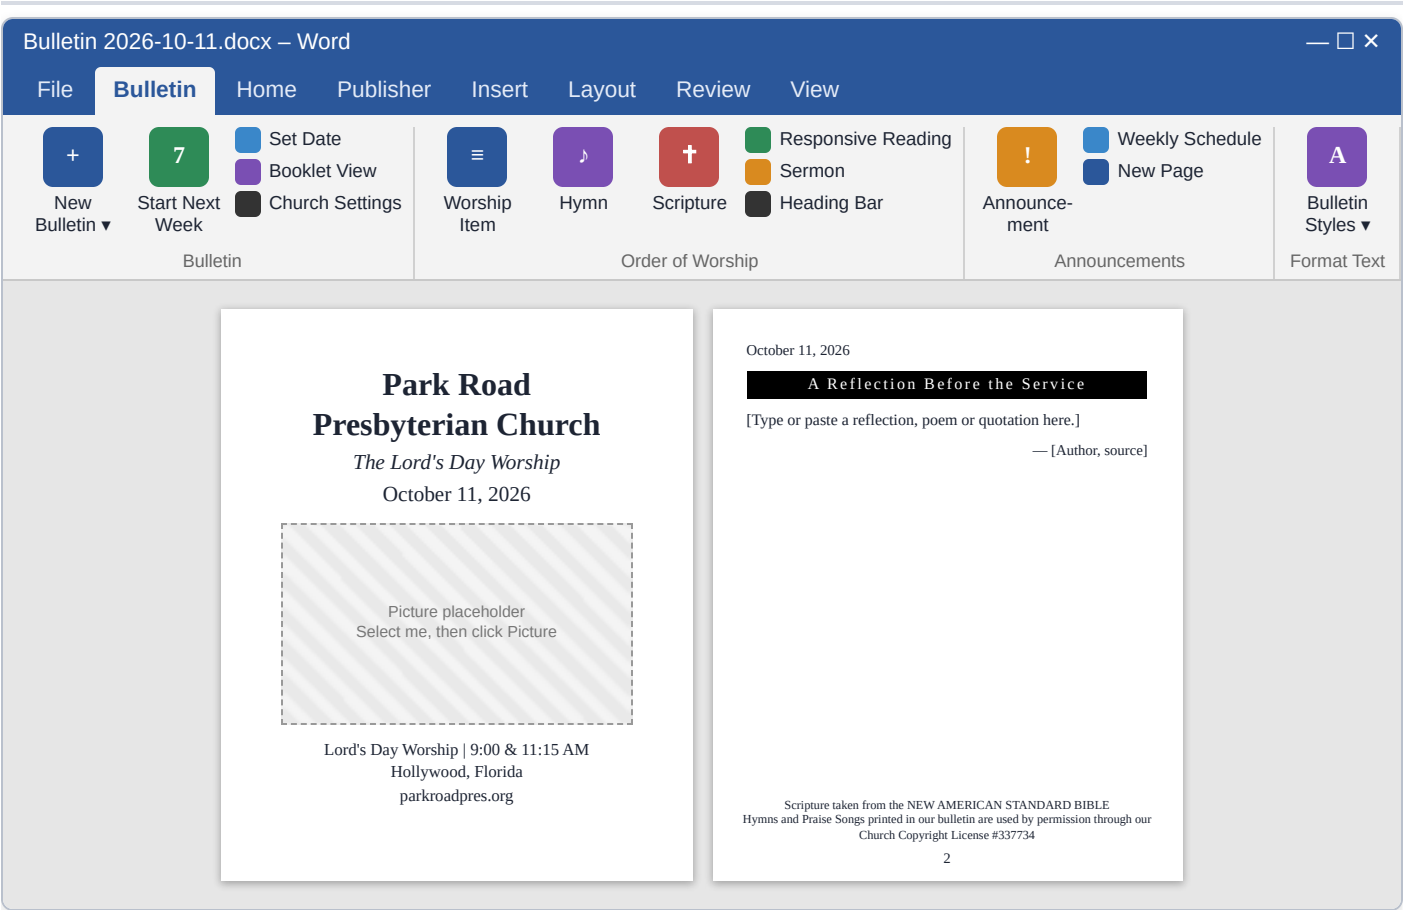

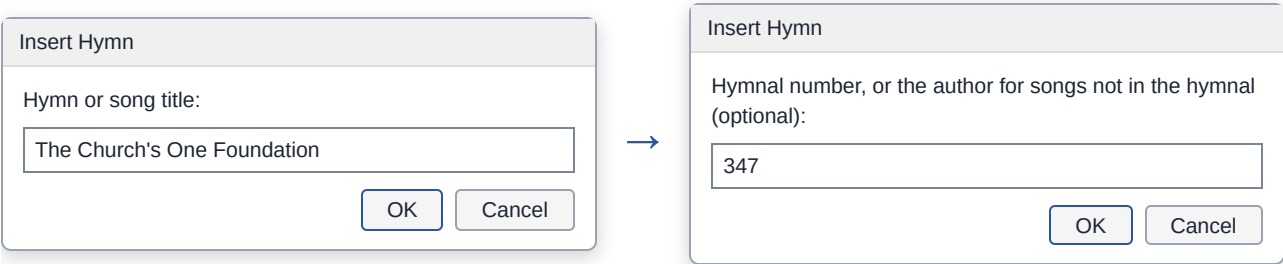

Illustration of Word after clicking New Bulletin, in Booklet View. Icons and colors in your copy of Word will look slightly different.

2 · Adding a hymn

Click where the hymn should go and press **Hymn**. Word asks a few short questions and inserts the hymn in the bulletin's format.

It also asks for a heading (e.g. *The Opening Hymn of Praise*) and which verses to sing. For songs not in the hymnal, answer **Yes** to “Add space to paste the words?”. The result:

The Opening Hymn of Praise

“The Church's One Foundation” (vv. 1-2, 4-6)

#347

Illustration. The number lines up at the right edge automatically.

3 · The order of worship

The Prelude

The Welcome and Announcements

The Call to Worship: Psalm 150

Leader: Praise the LORD! Praise God in His sanctuary;

People: Praise Him in His mighty expanse.

The Opening Hymn of Praise

"The Church's One Foundation" (vv. 1-2, 4-6) #347

"Come Lord Jesus" Tomlin/Ingram/Cates

All of creation, all of the earth,
make straight a highway, a path for the Lord
Like a bride waiting for her groom,
we'll be a church ready for You

The Scripture Reading: Nehemiah 2:11–3:5

*So I came to Jerusalem and was there three days. And I arose
in the night, I and a few men with me...*

Reader: The Word of the Lord

People: Thanks be to God!

The Sermon

— T. J. Campo

Nehemiah 2:11–3:5 | Not Just Another Brick in the Wall

3

Everything moves to fit. The order of worship is ordinary text, so adding, removing or reordering items pushes the rest down or up. No boxes to resize or link.

Each kind of line has its own style:

- **Worship Item:** bold heading, with optional text at the right edge
- **Hymn Line:** title and verses, hymnal number at the right
- **Lyrics and Chorus** (indented, chorus in italics)
- **Leader Line and People Line** (the congregation's part in bold)
- **Scripture Text:** italic, evenly justified

Pasting words from a website or email? Paste them, select them, then pick a style from **Bulletin Styles** so they match.

Change a style once and every line updates. For example, to make all hymn words larger, right-click *Lyrics* in Word's Styles list and choose Modify.

4 · Announcements

THIS WEEK at Park Road

Welcome! We are glad to have you with us today.

Sunday	9:00, 11:15 AM	Worship Service
	10:10 AM	All-Church Sunday Class
Monday	10:00 AM – Noon	Women in Stitches (Rec Room)
Tuesday	6:30–8:00 PM	Men's Bible Study

UPCOMING THIS MONTH at Park Road

Pumpkin Decorating Party! | Sat., Oct. 17 | 2–4 PM |

Fellowship Hall

Come anytime between 2–4 PM to decorate a pumpkin, enjoy fall treats, and have fun with your church family.

S.A.L.T. Lunch Gathering | Wed., Oct. 21 | 11:30 AM

Join the SALT group for lunch at Rendezvous Restaurant. Please sign up on the Keeping in Touch form.

14

Announcement asks for the event name and “when and where”, then adds a bold title line and a details line below it.

Weekly Schedule adds a Day / Time / Event table with no borders. Press Tab to move between cells and Tab in the last cell to add a row.

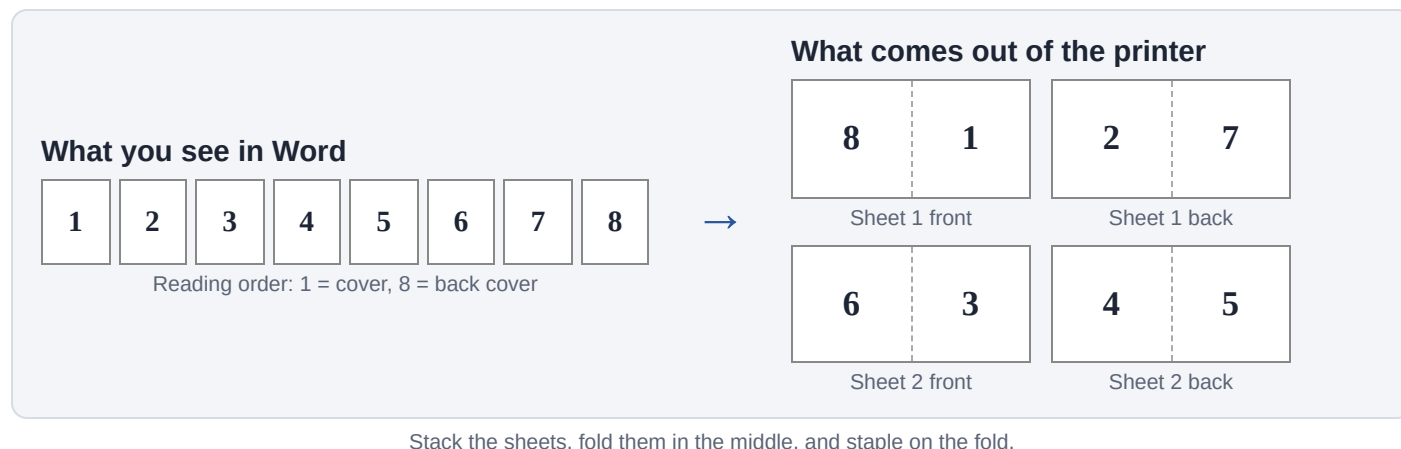

Heading Bar adds the black bars such as *THIS WEEK at Park Road*.

New Page starts the next item on a fresh page.

5 · How the booklet prints

You type the bulletin **in reading order**, page 1 to the end, at its finished size (7 × 8.5 inches). When you print, Word puts two pages on each side of a landscape legal sheet, in the order needed for the folded, stapled booklet.

Before printing: Check Pages

Check Pages

This bulletin has 14 pages = 4 sheets of paper.

A booklet needs a multiple of 4 pages, so 2 page(s) will be blank. Word would put them at the very end, after your back cover.

Add 2 blank page(s) just BEFORE the back cover instead?

Each sheet holds 4 pages, so a booklet is always 4, 8, 12, 16... pages. **Check Pages** warns you and offers to add the blank pages inside the booklet so the back cover stays on the back. Use them for notes or more announcements.

Illustration of the Check Pages message.

Printing choices

- **Print Booklet:** in the Print window choose **Print on Both Sides, flip on short edge** and **Legal** paper. If the printer can't print both sides, choose *Manually Print on Both Sides* and put the paper back in when Word asks.
- **PDF for Printing:** saves the sheets exactly as above, for the office copier or a print shop.
- **PDF for Website:** one page per PDF page, in reading order, for the website or email.

Each week, in short

- 1 Open last week's bulletin and click **Start Next Week**. Confirm the date.
- 2 Update the hymns, readings, sermon and announcements. Use the buttons to add items.
- 3 Click **Booklet View** to look it over, then **Check Pages**.
- 4 **Print Booklet**, or **PDF for Printing** for the copier, plus **PDF for Website**.
